How I made \$1000 in 3 Days only

Hi, First of all, I am sorry for the bad formatting and the poor spacing, because I am writing a report just to show you how I made \$1000 in 3 days only. The method you are going to read in this report is really a wonderful and I am sure that you have never heard about this method ever before.

Some of the people would like to describe this method as Blackhat, Greyhat or something like that. Even in some of the countries, this method will be described as illegal. But, everything is fair in love, war and BUSINESS! AND this is the life!

I tried and made money, That's it!

Enough...!! Ok, I am going to tell you how I did this trick making such a huge amount in a **3 Days Only**.

Step – 1

I visited the website <http://www.heygidday.com/e-books.htm> All the ebooks at this website are free to download and you have all resale rights. Means you can download for free and can resell by charging money. All the e-books are having PLR. PLR means Private Label Rights. You can edit or modify the ebook and can sell it and can keep 100% of the amount. I downloaded an interesting ebook related to a wonderful niche. I would not describe the name of the ebook here due to the over saturation of the method. You can find out any ebook that interest you or is according to your niche.

Step – 2

I visited on www.payloadz.com , this is the website where you can sell the digital products without paying any fee upto a limited sales amount, and without any trouble or hassle. I uploaded the e-book on www.payloadz.com. I fixed the price of this e-book only \$2.40 and got a download link for my ebook. Whenever a visitor will click on this link and buy the ebook, then the download link of the ebook will go to its email ID and \$2.40 will goto my paypal ID. So, I was having ZERO tension.

Step – 3

Now, I wanted the visitors to visit at the download page at payloadz.com to download my e-book. But I did not have any website or blog or any kind of traffic source. So I decided to adopt the way of email marketing because only in this way I could provided the visitors the link to my e-book download page.

Step – 4

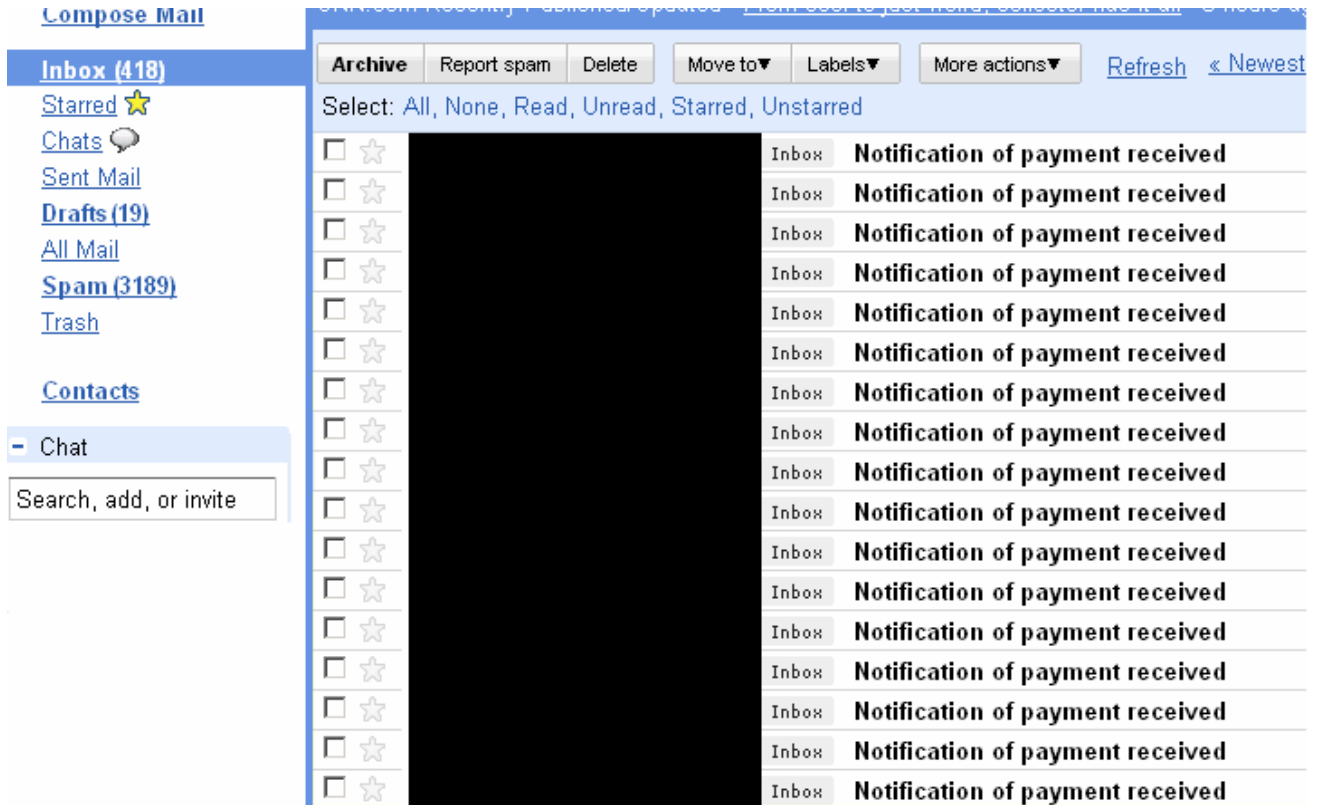

I started thinking about how could I manage getting such amount of email IDs which are targeted and easy to collect. I started surfing net and downloaded few softwares like **email spider**, **email sniper** etc. but all in vain. There were trial version and the full versions were very much costly, that I could not afford that because I wanted to make money without any cost. I again started on google.com and finally found a wonderful product **Acute email IDs production engine** on www.sagawebs.com I finally decided to download this product from the website.

Step – 5

After downloading the product, I found that this product was a wonder for me. It requires only the names of the people of the country you want to target. I downloaded few first and last names of the people of US, UK and Canada from the different websites and imported them in the product. I was totally surprised that it generated 15000 estimated email IDs within few seconds using those names. Now, it was the time to use these email IDs. I knew that 15000 email IDs which were generated will not work because these were the estimated ones with common names. But still I was sure that it will leave something great for me & it **HAPPENED!**

Step – 6

Now, I was in a need of that kind of software (of course free of cost) to send emails at once at these 15000 email IDs. Soon I found **vallen emailer** at <http://www.vallen.de/freeware> This is also a very good product which can send thousands of emails in a single stroke. There is no specific setting and is just like install and use. The best thing is that it is **TOTALLY FREE !** I wrote an impressive email with proper formatting and sent emails using this program. It took near about 20-30 minutes to send all emails. It was 11:30 Pm and I went to the bed and started waiting for morning. The next day at around 9.30 Am when I checked my Gmail account it showed me this picture. I could not believe, I was on the seventh sky, I could not believe that I made money in such a great way and of course without any significant cost. It was just like a wonder for me.

and this was the picture of my paypal account

This is on the very first day.

See detailed screenshot at the next page.

I kept on receiving such kind of notifications of payments on the next 3 days and made more than \$1000 in three days.
